

Almirall's **MS Expert Summit**, now on its 10th edition, is a highly regarded and well established medical forum for healthcare professionals in Multiple Sclerosis (MS).

This edition will include a number of MS hot topics as plenary sessions, but also country specific break-out groups.

The programme to become available soon, approved by the chairman, will bring a panel of relevant international MS experts to review the challenges and novelties associated with the broad management of MS, including the MS symptoms area.
