Condiciones y tÃ©rminos de facturaciÃ³n de la compra:	_____ _____ _____

Takeda has provided the Ariba Network for all suppliers to conduct business in a more efficient manner.
All invoices should be issued electronically on the Ariba platform, which is the preferred way of doing
business with Takeda. If you have not yet joined Ariba Network then please immediately contact the
Supplier Enablement Team.

If you havenâ□□t yet embraced this new way of doing business with our company or you receive PO directly
from SAP system via eMail please send your scanned invoice to || Takeda-ICS-ES@maildrop.wm.net ||

To ensure timely processing please ensure the below criteria is met.

How to make sure your scanned invoice is accepted first time:
1) The invoice must be in PDF format.
2) Only include 1 invoice per PDF file, with a maximum of 20 invoices (20 PDF files) per email.
3) All invoices must clearly show the correct PO number (or Takeda requestor name for non-PO invoices).
4) Invoices can be scanned together with any accompanying documents and relevant information, but must
be in a single PDF file with the invoice itself on the first page of the PDF.
5) Text included in the accompanying email will not be scanned as part of the process, so make sure
important information is included in the PDF itself.

Supplier Enablement Team, please contact: || supplier.enablement@takeda.com ||

For general queries ONLY, please contact: || smb.Vendor.Query@takeda.com ||
